

# Pairing Apple Wireless Keyboard with an iPad

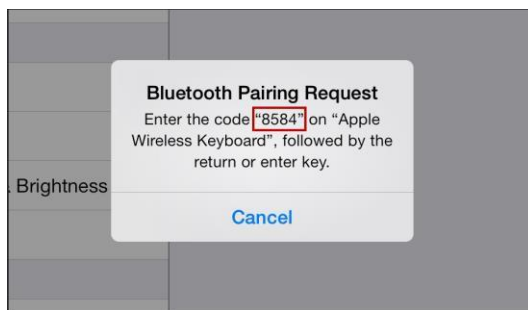

Press and release the on/off switch on the Apple wireless keyboard. The green power light should begin to blink:

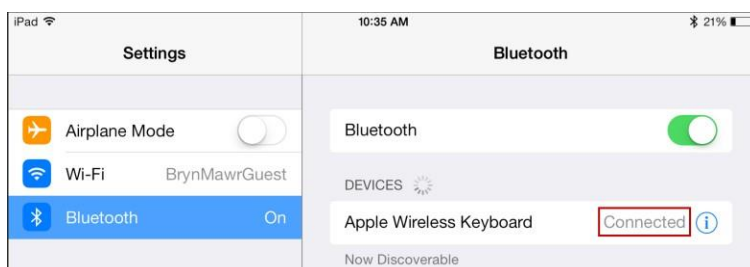

In the iPad settings menu, make sure Bluetooth is on. Under DEVICES, tap Apple Wireless Keyboard:

Type the code on the the Apple wireless keyboard when prompted:

The device should now be connected and ready to use:

**Tip: power down the keyboard when not in use by holding down the on/off switch for several seconds to preserve battery life and prevent iPad from waking unintentionally.**
